
MY FAVORITE TIME OF YEAR

Lyrics by Lisa Dawn Miller | Music by Lisa Dawn Miller & Mark Matson
Copyright ©2015

I can hear the melody
Of everything I want to be
It's whispering that hope is real
It tells me to believe in the love around
It's a peaceful sound
When dreams appear
Christmastime is finally here

Wish upon a star
It isn't very far
December is the time
When dreams really do come true

My favorite time of year
Is always Christmas
It's the time of year
When hope can bring us
All we dream
If we can believe

It's the time of year
When the world's most caring
It's the time of year
When we are sharing
And celebrate
The love we hold so near
Christmastime is here

Being with my family
Home is where I want to be
It's written in my memory
Home is where I learned to believe in love
To give my love
It carries me
To everything I hope to be

I wish upon a star
It isn't very far
December is the time
When dreams really do come true

My favorite time of year
Is always Christmas
It's the time of year
When love will bring us
Closer to
What's real and what's true

It's the time of year
We learn what we're teaching
It's the time of year
That we keep on reaching
To find a way
To a brighter day
We're just one Christmas away

Wish upon a star
It isn't very far
December is the time when dreams
Really do come true

My favorite time of year
Is always Christmas
It's the time of year
When hope can bring us
All we dream
If we can believe

It's the time of year
When the world's most caring
It's the time of year
When we are sharing
And celebrate
That Christmas time is here

My favorite time of year
Is always Christmas
It's the time of year
When hope can bring us
All we dream
If we can believe

It's the
Time of year
When the world's most caring

It's the time of year
When we are sharing
And celebrate
That Christmas time is here
