
WE WERE MEANT TO BE

There you are
I remember when
We were a story with no end

I've come so far
Now I'm here again
I don't think I can just pretend

'Cause I believe that we were meant to be

Here I stand
I belong to you
Deep in my heart I always knew

I never planned
All that we went through
Should I be coming back to you

There's a place inside of me
That's hangin' on cause we were meant to be

Take me to that place where I can feel it again
There is
No one who could love me like you

Though I
Tried to run away from all those feelings back then

Now there's
Nothing more that I want to do

Than love you (*la, la-la-la-la, la, la*)
I love you
I believe that
We were meant to be
I can see
And feel you now

Can we climb
To a higher place
Being together feels so real

The touch of time
Left a lonely space
That only your love
Can help me heal

I believe that you and me
Can find a way cause' we were meant to be

The journey of goodbye brought us together again There will
Never be another like you

I believed
We'd share tomorrow
Now it's here
Let's begin
Cause there's
Nothing more that I want to do

Than love you (*la, la-la-la-la, la, la*)
I love you

(la, la-la-la-la, la, la)

I believe that
We were meant to be

I can see
And feel you now

(instrumental)

Take me to that place where I can feel it again There is
No one who could love me like you

I believed
We'd share tomorrow
Now it's here
Let's begin
Cause there's
Nothing more that I want to do

Than love you (*la, la-la-la-la, la, la*)
I love you

I believe that
We were meant to be
I can see
And feel you now

(la, la-la-la-la, la, la)
(la, la-la-la-la, la, la)
(la, la-la-la-la, la, la)
